

“MY-TECH” Metal Detector

Made in Japan

The product items pass through the Detection Head tunnel, which automatically detects the inclusion of metal objects, e.g., pieces of iron, copper, aluminum, lead, stainless steel and other metals. The detection heads ensures highly accurate metal detection.

Computer type meter detector With English control panel

Feature:

- Proprietary detection heads created with many years' technological know-how for the greatest detection sensitivity ever achieved
- A selection of Detection Heads to match your products for optimum performance
- Easy to operate and handle
- Comes with set-up data for 100 different products
- Resistant to outside noise
- A selection of widely-varied options
- Add-on printer available
- Connectable sorter available
- Special custom design available

“TAIHEIYO” Flat Bed Type Needle Detector

Made in Japan

“FORCEWARE” Metal Detector Made in Germany

PMD-TM16 Flat Bed Type Needle Detector

With high sensitivity and stability, PMD-TM16 detects sewing needles or iron fragments hidden in clothes or foodstuffs reliably. Can find out sewing needles or broken needles hidden in clothes and fabrics that in the manufacturing process.

Specifications	
Warning System	With two lamps and inner buzzer
Detecting area	15 x 55cm (W x D)
Detecting Sensitivity	Detection of silk needles at 80mm above the detection surface
Power supply	20V 50Hz. AC

MD6 Metal Detector

Features:

- Detects ferrous and non-ferrous metals
- Audible & vibration & light bar alarm
- Alert in any desired combination
- Complies with F.A.A., F.C.C., IEC 529 standards
- Cost effective
- Comfortable rubber handle
- 9 V standard or alkaline, lasts 2000 typical scanning operations
- Length and width: 315 x 50 mm. Weight: 280 g
